## LIMITED GROWTH & FLOWERING GUARANTEE

---

Garden State Bulb Co. (GSB) products have been grown with the utmost care and are of excellent quality. In order to obtain the desired end result, it is important that the instructions on our site and/or the accompanying (plant) instructions are followed. Given that we work with a natural product; we offer a 1 Year Limited Growth and Flowering Guarantee.

Garden State Bulb's obligation under this Guarantee is limited to troubleshooting, replacing the product, missing pieces or providing a gift certificate at Garden State Bulb's discretion. All products for which a Guarantee claim is made must be received by GSB and accompanied by sufficient proof of purchase (emailed or original physical store receipt, indicating the date of purchase).

This Guarantee does NOT cover improper handling, storing, weathering, failure to follow directions, improper care, improper maintenance, or acts of nature, (such as damage caused by wind, lightning, snow, water, or ice), or damage caused by improper use of the products are not covered by the product warranty. No other guarantee beyond that specifically set forth above is authorized by Garden State Bulb Co.

BLOOM TIME	Summer to Fall
LIGHT	Full Sun
SPACING	12" apart, (1 per sq. ft.)
DEPTH	Plant 6" deep
MATURE HEIGHT	34" to 38" tall
BENEFITS	Attracts Butterflies

## Soil Preparation

Great gardens start with great soil!  
Soil preparation is essential for successful gardening.

Healthy soil should have good tilth, nutrient content, and a viable population of beneficial microorganisms. We recommend using natural and organic ingredients to prepare the soil and maintain soil fertility. It is always a good idea to have a soil test to identify your soil type (sandy, loam, silt, clay) and find out your soil pH.

**NOTE:** It is important to store correctly until planting. Store in a cool, dry place with plenty of air circulation. Plant in spring as soon as ground has thawed and soil has warmed to 50°F and is workable. Usually 4-6 weeks after the last frost.

## Bulb Planting Instructions

1. Plant dahlias in the spring after the ground has thawed and there is no longer danger of frost.
2. Choose a location with well-drained soil that receives full sun. Loosen soil prior to planting.
3. Dig a hole in loosened soil 6" deep. Place the bare root in the hole with the roots/tubers down and any sprouts facing up. Space each bulb 12" apart.
4. Cover with soil and water well so that the soil above the bulbs settles. Keep soil moist during periods of dry weather but do not overwater.

## About Dahlias

Garden State Bulb Bishop of Llandaff Dahlia Bare roots are sourced directly from our farms and growers in Holland. Bishop of Llandaff is renowned for its vibrant scarlet red blooms and attractive open-faced flowers, making it a delightful haven for pollinators like butterflies and hummingbirds. This classic variety stands out with its semidouble scarlet blooms that contrast beautifully against its almost black foliage. Dahlias have always been a beloved choice for gardens due to their easy cultivation, quick blooming, and stunning bold petals. Moreover, they can also thrive in raised beds or large patio containers, reaching heights of 2-3 feet.

## CONTACT US

# FREQUENTLY ASKED QUESTIONS

---

**Q. When should you plant spring bulbs/bare roots?**

**A.** Spring planted/summer flowering bulbs and tubers can be planted in the spring when you are certain the ground will no longer freeze in your area.

**Q. What should I plant with dahlias?**

**A.** Other spring planted/summer flowering bulbs/bare roots to plant with lilies include peonies, gladioli, lilies, and more!

**Q. What is the best way to store my bulbs/bare roots until I plant them?**

**A.** Store bulbs and tubers in a cool, dark, and dry spot with good air circulation prior to planting them.
