**PRODUCT MODEL#**

**RETAILER WHERE PURCHASED**

**DATE OF PURCHASE**

**ORDER NUMBER (IF AVAILABLE)**

## LIMITED GROWTH & FLOWERING GUARANTEE

---

Garden State Bulb Co. (GSB) products have been grown with the utmost care and are of excellent quality. In order to obtain the desired end result, it is important that the instructions on our site and/or the accompanying (plant) instructions are followed. Given that we work with a natural product; we offer a 1 Year Limited Growth and Flowering Guarantee.

Garden State Bulb's obligation under this Guarantee is limited to troubleshooting, replacing the product, missing pieces or providing a gift certificate at Garden State Bulb's discretion. All products for which a Guarantee claim is made must be received by GSB and accompanied by sufficient proof of purchase (emailed or original physical store receipt, indicating the date of purchase).

This Guarantee does NOT cover improper handling, storing, weathering, failure to follow directions, improper care, improper maintenance, or acts of nature, (such as damage caused by wind, lightning, snow, water, or ice), or damage caused by improper use of the products are not covered by the product warranty. No other guarantee beyond that specifically set forth above is authorized by Garden State Bulb Co.

# PLANTING & CARE INSTRUCTIONS

<b>PLANTING TIME</b>	Spring or Fall
<b>BLOOM TIME</b>	All Season
<b>LIGHT</b>	Partial Sun to Partial Sun
<b>SPACING</b>	12" apart, (1 per sq. ft.)
<b>DEPTH</b>	Plant 6" deep
<b>MATURE HEIGHT</b>	36"-48" tall
<b>BENEFITS</b>	Very Unique Variety

## Soil Preparation

Great gardens start with great soil!  
Soil preparation is essential for successful gardening.

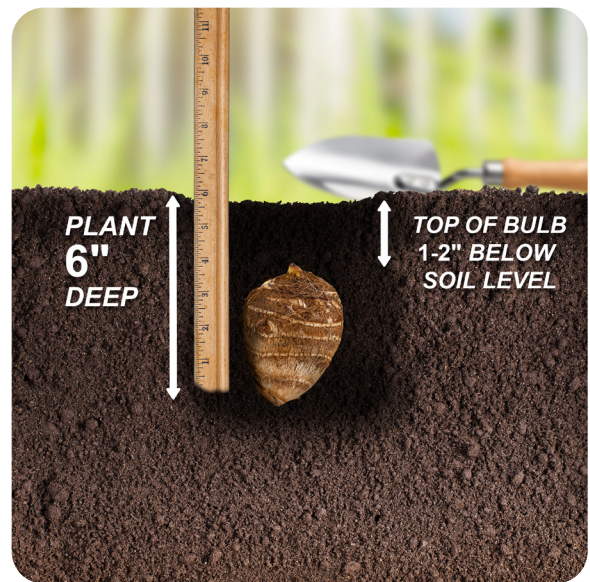

Healthy soil should have good tilth, nutrient content, and a viable population of beneficial microorganisms. We recommend using natural and organic ingredients to prepare the soil and maintain soil fertility. It is always a good idea to have a soil test to identify your soil type (sandy, loam, silt, clay) and find out your soil pH.

**NOTE:** It is important to store correctly until planting. Store in a cool, dry place with plenty of air circulation. Before planting, outside temperature needs to be at a minimum of 45°F at night and 70°F in daytime.

## Bulb Planting Instructions

- 1 Choose a location with well-drained soil. Loosen soil prior to planting.
- 2 Dig a hole in loosened soil 2 to 4 times the size of the bulb (about 6" deep). Place bulb with the blunt side facing down and any sprouts facing up.
- 3 Plant Elephant ear bulbs so the top of the bulb is about 1-2" below the soil surface and each bulb about 12-24" apart.
- 4 Cover with soil and water well so that the soil above the bulbs settles. Keep soil moist during periods of dry weather but do not overwater.

\*Elephant Ears will start growing once the soil temperature reaches 65°F or warmer. In cooler climates (zones 3-8), Elephant ears will grow as an annual.

## About Elephant Ears

Vigoro Premium Pharaoh's Mask Elephant Ear is a leafy, breathtaking, mystical addition to any garden or landscape. Featuring large, clumping, heart-shaped leaves with black, raised veins, you've never seen anything like it. This variety of elephant ear looks lovely planted en masse; in gardens, borders, containers; or by water features. Pharaoh's Mask grows to 4-5 feet tall when mature, is resistant to pests like deer, and is known for the 3D effect of its unique leaves. Vigoro Premium Pharaoh's Mask Elephant Ear Bulbs are cultivated, inspected for quality, and imported from Holland, home of the world's finest flower bulbs and bulb farms.

# FREQUENTLY ASKED QUESTIONS

---

**Q. Do larger elephant ear bulbs mean larger plants?**

**A.** Yes, the larger the bulbs, the larger the plants with more foliage.

**Q. Can elephant ear bulbs be left in the ground?**

**A.** Elephant ears can stay in the ground if you live in hardiness zones 7 through 11 during the winter months.

**Q. How cold can elephant ears tolerate?**

**A.** Elephant ears can tolerate temperatures above 45° Fahrenheit.
